Kim Sutton's Creative Mathematics presents *Effective Math Tools*

What are the most important tools for teaching mathematics at the elementary level? The right "math tools" can be a crucial part of the mathematics curriculum to reinforce problem solving and empower students. Kim's class, *Effective Math Tools*, is an exciting hands-on workshop where you will build, use and understand amazing "math tools" that will greatly improve your mathematical teaching. Throughout this seminar, presenter Darlene Vargas will share successful strategies for use of math tools in the elementary classroom.

What You Will Learn:

- How to construct and use effective "math tools" to improve your teaching.
- Fun games and strategies that help students learn the important content of mathematics.
- How to use children's literature as a critical element for teaching mathematics.
- How to use a "teacher tool kit" and "student tool kit" that builds mathematical understanding and personal responsibility.
- Amazing songs and dances that make math come alive!
- Great "visual tools" that support continual learning in your classroom.
- How to build and use "math books" for repeated experiences of basic math facts.
